

DrainLine 150 is a durable polymer concrete trench drain system for use around residential, office, and other light duty areas. It is a practical system for draining large amounts of water.

Polymer concrete is a versatile composite material produced by mixing mineral aggregate with a resin binding agent. Polymer concrete outperforms HDPE in its compressive strength, ability to withstand freeze-thaw cycles and adverse weather conditions, ensuring a longer service life.

The system offers a number of layout and outlet options, including half meter channels and in-line catch basin.

Suitable for pedestrian/light vehicle traffic applications such as:

- Driveways
- Patios
- Walkways
- Cart paths
- Light traffic parking areas

DrainLine 150

Product Overview

Part Table

| | Part No. | Length inches | Width inches | Height inches | Wgt. lbs |
|------------------------|--------------|---------------|--------------|---------------|----------|
| Channel with grate | 03612 | 39.4 | 7.8 | 5.7 | 47.1 |
| Channel with grate | 03616 | 19.7 | 7.8 | 5.7 | 23.5 |
| Catch basin with grate | 04093 | 19.7 | 7.8 | 15.7 | 61.0 |
| Closing cap | 03697 | - | 7.8 | 5.7 | 1.5 |

Installation Instructions

Excavate area to allow room for channels/catch basin and 4" of concrete on all 3 sides.

Pour concrete bed - 14" wide by 4" deep, keep outlet pipe clean.

Lay channels starting at outlet. Set a string line at required height to ensure level.

Continue to lay channels to required run length; continuously check alignment and level.

Install pavers or finish pavement surround to required level, should be 1/8" above grate.

Clean away debris, remove protective plastic if necessary. Seal joints if required.
