HexaDrain Brickslot

*Discreet slot
drainage system*

HexaDrain Brickslot

HexaDrain Brickslot is a 100% recycled polypropylene trench drain system that provides unobtrusive/discreet slot drainage in domestic paver or tile installation.

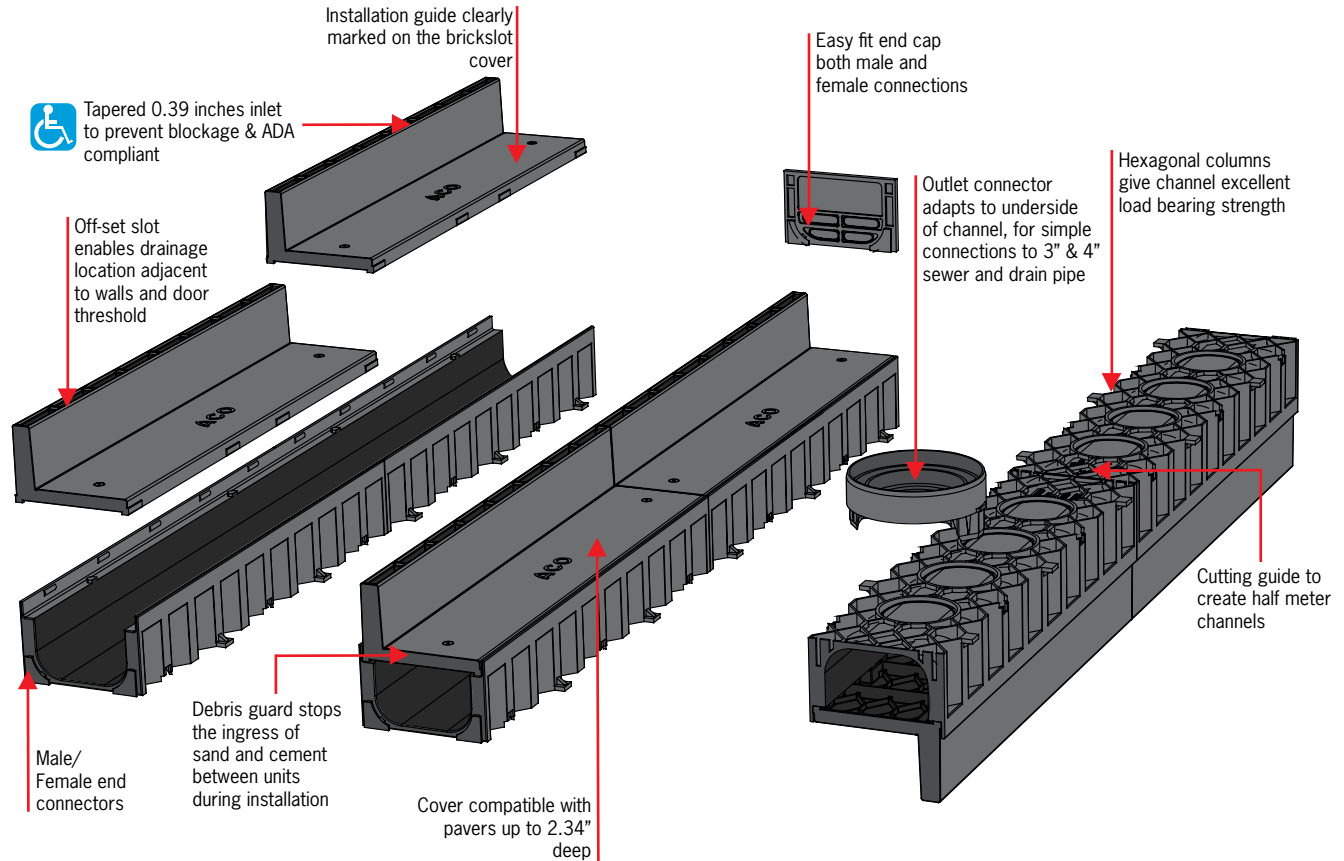

Access to pipe-work for maintenance is through the removable cover on the corner unit.

Suitable for pedestrian/light vehicle traffic applications such as:

- Residential driveways
- Patios
- Walkways
- Doorways

Product Overview

Accessories

Corner unit :

Allows up to 4 channel connection. Use as access to outlet pipes for maintenance

* Requires 4" flex adaptor to fit to outlet pipe or use vertical bottom outlet adapter on channel

Accessory pack including:

2# - closing end caps

1# - vertical outlet

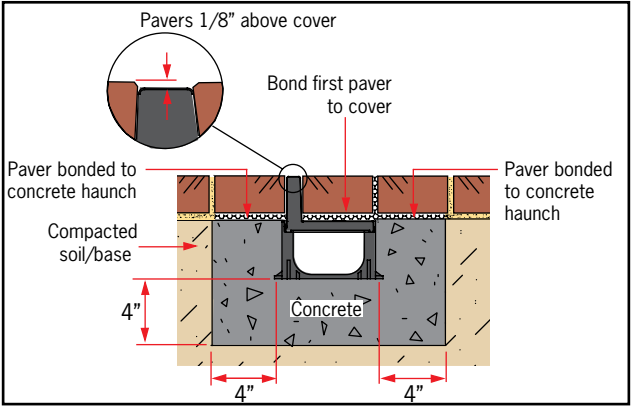

1# - leaf guard

Installation Instructions

For driveway applications, trench drain **MUST** be surrounded by 4" of concrete.

Excavate area to accommodate trench drain and 4" concrete surround, compact base.

Lay 4" deep concrete bed. Cut channels to fit required length (if necessary).

Knockout channel base for outlet at required position. Push-fit outlet adaptor into bottom of channel, lay outlet channel first and connect to 3" or 4" SDR pipe.

Alternatively, use 4" flex coupling to connect 4" SDR pipe to outlet on base of corner unit, set in place and lay channels from that point.

Lay remaining channels, units slide-fit together. Lay pavement either side of channel 1/8" higher than grate. (See above diagram). Bond pavers to cover and concrete haunch to prevent damage to slot when trafficked (See above diagram).

For pedestrian only applications, trench drain can be set directly on well compacted soil.

Other Markant by ACO product lines

HexaDrain

HexaDrain is an innovative plastic residential trench drain system. It offers simple and easy installation due to push-fit components.

DrainLine 100

DrainLine 100 is designed for use around residential, office and other light duty areas.

DrainLine 150

DrainLine 150 offers good hydraulic capacity. Designed for use around residential, office, and other light duty areas. Ideal for use in underground parking areas such as condos and duplexes.

PointDrain

PointDrains are ideal drainage solutions for small scale applications where problems with complex ground slopes are not an issue.

DrainMat

DrainMat is the ideal solution to protect entrances from water and debris. DrainMat can be used for residential and commercial use to protect from rain, melting snow, and everyday debris.

GrassGrid

GrassGrid reinforces grassed areas to allow vehicle parking and traffic without excessive wear and erosion.

BorderGuard

BorderGuard provides aesthetic, neat edge for paver, GrassGrid, or other paving material.
